

Capability Statement

2023

With 20 years of experience, ITC has been the dominant agriculture ground engaging tool and wear parts provider to North West, New South Wales, and beyond. ITC supplies discs for a range of applications, such as seeding, conventional stubble ploughing, vertical tillage, ploughing and levelling, and refining.

Today, ITC Agriculture offers an extensive range of premium, top-grade minimum tillage parts that combine hardness and wear resistance with improved flexibility and resilience to shocks and deformation.

ITC Agriculture Wear Parts is a reliable and trustworthy supplier of high-quality agricultural wear parts. Our commitment to quality, technical expertise, and customer service sets us apart from our competitors, and we are confident that our products and services will meet the needs of our customers.

GOAL:

Committed to providing durable and reliable wear parts that help farmers and agricultural businesses to increase productivity, reduce maintenance costs, and minimize downtime.

OUR NEW BUSINESS STRUCTURE:

To better improve your experience

PRODUCT RANGE:

Our product range covers most major brands of agricultural equipment, making it easy for our customers to find the parts they need.

TECHNICAL SUPPORT:

We have a team of highly trained technical experts available to provide assistance and support to our customers.

MANUFACTURING EXCELLENCE:

Our state-of-the-art manufacturing facilities are equipped with the latest machinery and tools, with our skilled workers trained to use them effectively.

QUALITY ASSURANCE:

Our quality control procedures ensure that all of our products meet the required specifications, and we conduct rigorous testing to ensure that they are durable and reliable.

CUSTOMER SERVICE:

We offer fast and reliable shipping, and we are available to provide support before, during, and after the sale.

INVENTORY MANAGEMENT:

Continuously evaluate and optimize stock level to meet any seasonal ad-hoc inquiries.

OUR SUPPORTIVE TEAM

To meet anything you may needed

CUSTOMER SERVICE:

Our customer service team is dedicated to delivering an exceptional experience for every customer. With a focus on proactive communication and a determination to meet your needs.

OPERATION TEAM:

The ITC efficient and effective operational team can inspire confidence with our customers by ensuring timely delivery of quality products and addressing any issues or concerns promptly and professionally.

R&D:

Our products are designed and manufactured to the highest standards of quality, using the latest technology and materials.

MARKETING:

Providing you with timely and relevant updates about our company and products, ensuring you receive information before anyone else.

TCO:

Hard-facing specialists, with our high quality Tungsten Carbide Overlay (TCO), the ultimate solution to extend the wearlife of your agricultural parts. Our TCO grit hard-facing process ensures that your parts meet the highest quality standards and exceed your expectations.

WAREHOUSE:

Advance stock management practices that regularly monitor inventory levels and adjust orders accordingly to prevent overstocking or stockouts.

FIELD SPECIALIST:

Eligible for field visits and ensure the parts fitment etc.

QUALITY ASSURANCE:

Our quality control procedures ensure that all of our products meet the required specifications, and we conduct rigorous testing to ensure that they are durable and reliable.

FAST AND RELIABLE SHIPPING:

Ensuring that our customers receive their parts quickly and efficiently.

COMPETITIVE PRICING:

We offer competitive pricing on our products, making it easy for our customers to find the parts they need at a price that fits their budget.

TUNGSTEN CARBIDE OVERLAY:

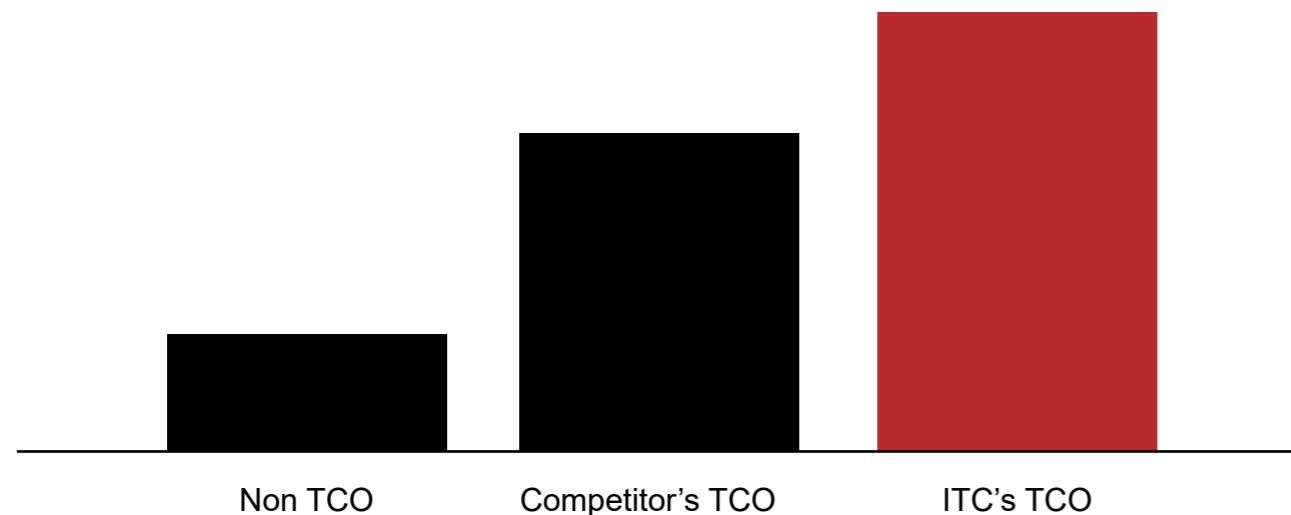

Your Agriculture Machinery Solution

Having supported TCO and agricultural wear parts to Australia for 20 years, ITC delivers the highest quality products every time, with our Tungsten Carbide materials sourced from exceptionally trusted quality manufacturers.

OUR SPECIAL TCO

- **Automation welding procedure:** Our consistent use of Tungsten chip distribution is dedicated to supporting your equipment.
- **Experienced welders:** Our hand-welding procedures are conducted by our team of well-experienced welders. TCO engineering through skillful techniques.
- **Short lead time:** We forecast most TCO Ag parts on-shelf before peak season demand to supply you with the right parts you need for demanding seasons.
- **Best quality TCO in the market:** Our TCO is backed by proven track data of field trial records.

- ✓ Extends the wear life of components by 3-4 times, even in extreme conditions.
- ✓ Reduces the need for worn-out parts replacement.
- ✓ Reduce maintenance costs by up to 40%.
- ✓ Less prone to wear and damage, which results in fewer maintenance and repair needs.

INCREASED DURABILITY & WEAR RESISTANCE

- **Robust & reliable:** TCO features a hard and durable surface, which helps to extend the lifespan of tillage tools and high-wear components and reduces the need for frequent repairs or replacements.
- **Improved efficiency:** By reducing downtime due to wear and tear, TCO increases the efficiency of agricultural operations.

COST SAVING & INCREASED PRODUCTIVITY

- **Save time & money:** TCO reduces overall maintenance costs and prolongs the lifespan of your machinery, leading to long-term cost savings.
- **Better soil preparation:** TCO helps maintain the shape and function of tillage tools, which leads to better soil preparation and improved crop yields.
- **Reduced soil compaction:** The hard and durable surface of TCO helps reduce soil compaction and improve soil health, leading to better crop yields and improve overall agricultural productivity.
